Any therapy (not a vaccine) that needs 'boosting' every 3 months cannot be considered 'effective', and we know from experience that mRNA is nowhere near 'safe'.

I was not vaccinated as a child; I had measles, mumps, whooping cough, and chicken pox. I was immunized against polio. I did not get the jab for Covid. I did not get Covid, the last time I went to the doctor because I was sick was 1972 (kidney infection), I am 87 years old.
